

ZRT Combo Hormone Profile Kit

Price: \$275.00

Short Description

Comprehensive test for thyroid, adrenal and reproductive hormones. 12 tests - same as Advanced Plus but without the Vitamin D test.

Description

The **COMBO Hormone Profile Kit** tests the thyroid, adrenal and reproductive glands. Ideal for men and women (originally formulated to address the needs of women).

When your hormones are out of balance overall health suffers. Understanding how your hormones are functioning is often the critical first step in starting the process of healing. The Canary Club **COMBO Hormone Profile Kit** provides a comprehensive analysis of your hormone profile. The COMBO Hormone Profile Kit combines both saliva and blood spot test collection materials in an all-in-one kit, allowing for a single, comprehensive report. Putting saliva and blood spot test materials together in one combination kit makes it convenient to collect hormones from the three major glandular systems - reproductive, thyroid, and adrenal - on the same day at the optimal times.

Canary Club COMBO Hormone Profile Kit

Summary: For those concerned about fatigue, depression, weight issues or feeling fat, fuzzy or frazzled. Assesses reproductive, adrenal, and thyroid hormones.

What is included in the Canary Club COMBO Kit?

A complete panel assessing adrenal and reproductive hormone levels, plus a complete thyroid panel. It is an all-in-one, easy-to-use at-home hormone test kit.

Reproductive: Estradiol (E2), Progesterone, Testosterone. Tested in saliva.

Adrenal: Diurnal 4x Cortisol, DHEA-S. Tested in saliva.

Thyroid: TSH, fT3, fT4, TPO. Tested in blood spot.

Also available:

For the same tests plus Vitamin D, see our [Canary Club AdvancedPlus](#) test.

For the same tests plus PSA for men, see our [HIS AdvancedPlus](#) test.
